

FSW5

Walk-behind sweeping machine

Available with:

Safe Air

MULTI-STAGE AIR
FILTERING SYSTEM

Small sweeper, easy to use and maintain

 **FIMAP**[®]

FSW5 is a walk-behind, battery-powered sweeper, available with or without traction. It is designed to make the operator's work as easy as possible, to enhance productivity. Use is made simple by the few, intuitive controls, and more convenient by the exceptional manoeuvrability and the possibility of adjusting the handle height, according to the user's needs. The debris hopper has a large capacity and is easy to empty.

The machine body, moulded in high-density polyethylene, is wrap-around and equipped with side bumpers, to protect all the components inside. It can be completely opened, thus providing a full visibility and access, in order to ease any intervention on the machine. Maintenance is easy,

with no tools required, not even for adjusting and replacing the brushes.

FSW5 can be equipped with the multi-stage air filtering system Safe Air, made of a panel filter and a Hepa filter, which cleans the air before returning it back into the environment, making the surrounding space safer for the operator and the people who live in it. The optional electric filter shaker helps keep the filter clean, increasing productivity.

It is suitable for both indoor and outdoor spaces, even cluttered, such as driveways, car parks, warehouses, and in industrial, HoReCa and automotive sectors, as well as petrol stations.

MULTI-STAGE AIR FILTERING SYSTEM

HEPA filter
High filtering capacity with the finest dust (0,3 µm - 99,9% efficiency)

Polyester or paper panel filter

The external body opens fully and offers total accessibility to all internal components

Routine maintenance, adjustment and replacement of brushes can be carried out without tools

OPTIONAL AND STANDARD EQUIPMENT	FSW5 B	FSW5 Bt
COMFORT		
Hour meter	•	•
Vacuum ON/OFF (to protect the filter when cleaning damp surfaces)	•	•
Adjustable central brush without tools	•	•
3-position adjustable handle	•	•
On-board battery charger	○	○
PRODUCTIVITY		
Traction	-	•
Right side brush	•	•
Manual filter shaker	•	•
Electric filter shaker	○	○
FFM (Fimap Fleet Management)	○	○
SAFETY		
Safety key	•	•
Driving LED lights (front)	○	○
ENVIRONMENT		
Paper panel filter	•	•
Polyester panel filter	○	○
HEPA filter	○	○
• STANDARD	○ UPON REQUEST	- NOT AVAILABLE

TECHNICAL DATA	FSW5 B	FSW5 Bt
Productivity theoretical	up to sqm/h	2275 / 2600
SWEEPING UNIT		
Working width with central cylindrical brush	mm	500
Working width with side brush	(no.) mm	(1) 650
DIRT COLLECTION SYSTEM		
Maximum debris hopper volume	l	50
Type of dumping		manual
BATTERIES		
Supply/traction	V	12/semi aut. / 12/aut.
Batteries	(no.) V/Ah	(1) 12/150 ACID (1) 12/134 GEL (1) 12/100 (Li-ion)
Battery run time*	up to h	2 (Li-ion) *
SPECIFICATIONS		
Machine dimensions (L x h x w)	mm	1265 / 900 / 660
Machine weight empty without batteries	kg	76 / 79

* Run times are based on continuous sweeping run times
